Working with Arduino Environment

# Samitha Deshan

Undergraduate Computer Engineering Student  
Ambalangoda, Southern Province, Sri Lanka

## Summary

After my A/LS i work full time computer hardware and cctv operator. My responsible was maintaining and repairing computer hardware such as desktops, laptops, servers, and peripherals. I can diagnose hardware issues, replace faulty parts, and ensure that systems are functioning properly and may also install software and configure networks. I have strong technical skills, problem-solving abilities, attention to detail, and the ability to work well under pressure. And now i am undergraduate Computer Engineering Student in Sir John Kothalawala Defense University, My ambition is step in to the Computer Hardware & Manufacturing Field and explore my knowledge that i most favorite.

## Experience

### General Sir John Kotelawala Defence University Student

January 2023 - Present (11 months)  
Dehiwala, Western Province, Sri Lanka

### RIHE - Rotary Institute of Higher Education Physics Paper Examiner

May 2022 - Present (1 year 7 months)  
No 15/3, Samudradevi mawatha, Nugegoda, Sri Lanka

### RK Computers & CCTV Operators Computer Hardware Technician & CCTV operator

May 2022 - December 2022 (8 months)  
Nindana, Southern Province, Sri Lanka

### National Cadet Corps - Sri Lanka Navy Cadet

January 2019 - September 2019 (9 months)  
Dharmasoka College Ambalangoda

During my time as a school navy cadet, I had the incredible opportunity to participate in a prestigious competition where my skills were put to the test. The competition brought together cadets from various schools across the entire island, making it a challenging and thrilling experience.

Through rigorous training and unwavering determination, I honed my skills in naval tactics, teamwork, and discipline. The competition itself was intense, with various tasks that demanded quick thinking, strategic decision-making, and precise execution. As a member of the navy cadet team, I collaborated closely with my fellow cadets, learning to communicate effectively and work together seamlessly under pressure.

After days of rigorous competition, our hard work paid off when we were awarded the fourth place in the all-island competition. The feeling of accomplishment was indescribable – knowing that our dedication and perseverance had led us to such a significant achievement. This experience not only boosted my confidence in my abilities but also instilled in me a deep appreciation for teamwork, leadership, and the importance of pushing one's limits to achieve success.

Being a school navy cadet and winning fourth place in ANNUAL ASSESSMENT CAMP NAVAL WING 2019 at NCC Rantambe, it remains a highlight of my life, reminding me that with determination and teamwork, I can overcome challenges and achieve remarkable feats.
